THE PAVEWAY SOLUTION

Paveway Systems provides you with a proven product solution for Patterned/Textured Pavement. Paveway STS[®] provides a barrier over the surface of asphalt to restrict oxidation while adding superior friction control. STS[®] can be installed on asphalt and concrete, new or old.

INSTALLATION

Our customers appreciate that we manage the manufacturing and installation process from start to finish. We work closely with traffic control to achieve an expedited installation with fewer mobilizations. STS[®] installs and cures quickly, limiting traffic disruption.

CUSTOM DESIGNING

Every project brings with it a unique set of design elements, obstacles and time sensitive scheduling needs. At Paveway, we offer a large variety of standard patterns and have the ability to quickly design custom patterns to meet most requests. Our swift production creates a perfect opportunity for Paveway Systems' customers to expedite their one-of-a-kind job installation. Distinctive custom designs take less time with Paveway STS[®].

WHY CHOOSE PAVEWAY SYSTEMS?

- ✓ Start to Finish by Paveway
- ✓ Integrity First
- ✓ Custom Designs in Less Time
- ✓ Many Color Options
- ✓ Flexible Installation Schedules
- ✓ Lasting Durability
- ✓ Preferred Pricing
- ✓ Streetscape Beautification
- ✓ Long Term Product /
Long Term Relationships
- ✓ Curb Appeal

PREMIUM PRODUCT

Paveway Systems has installed over two million square feet of STS[®] since 2006. Our aggregate infused system is listed on the approved product list for multiple state DOTs. STS[®] is a premium product that achieves an exceptional friction test rating. This provides a safer surface for both traffic and pedestrians.
